Tractor Safety Is Essential

Spring is always a busy season for farmers but most of them in Appomattox County will be spending more hours than usual on their tractors in the fields, because worldwide demand for food and fiber is bringing more acres into production, says James F. Ford, Jr., chairman of the Appomattox County Agricultural Stabilization and conservation (A S C) committee.

"Whenever anyone pushes himself to the limit, as many farmers will be doing this spring, he becomes more accident - prone," Mr. Ford said. "This means that tractor safety is more important, has added importance this year."

In the United States, tractor upsets account for 800 to 900 deaths each year. In addition, tens of thousands of farmers suffer disabling injuries, and millions of dollars are taken in property damage, medical costs, time off from work, farming power, and insurance costs.

It is appropriate that tractor safety is be April theme in the U. S. Department of Agriculture's year-round safety campaign," the ASC committeeman said. In keeping with the theme, he has offered the following tips for safer tractor operation:

—Stay clear of ditches, embankments, holes, etc., to avoid upsets.

—Keep children and other passengers" off and away from the tractor.

—Cut speed when turning, crossing slopes, or when on wet, slick or muddy surfaces.

—Stay off hills and slopes too steep for safe operation.

—Engage clutch slowly with heavy loads to avoid backward tipping and don't overload.

—Hitch heavy loads only to drawbar an use front weights to balance tractor, if needed. If drawbar is on 3-point hitch, set it no higher than fixed drawbar.

—Keep power take-off shields in place and turn off PTO before unclogging, adjusting or serving equipment.

—Set wheels as wide apart as practical for the job for better stability.

—When stopped, take tractor out of gear, firmly set brakes, and/or use park lock. Take the key with you.

USDA initiated a year-round safety campaign in 1972 to encourage special activities and timely safety practices each month, Mr. Ford said.

The program is coordinated with the National Safety Council. In past years USDA has promoted National Farm Safety Week during July, and Fire Prevention Week in October.

"Farm and home safety is a continous challenge-applies every day of the year," Mr. Ford said. "The Department hopes the new coordinated monthly safety effort will help reduce the farm accident toll."

Health Career Program To Be Presented

Helping students make the right career choice and stimulating interest in the health field is the dual purpose of the assembly program which will be presented by VIRGINIA HEALTH CAREERS to Randolph-Henry High School, Charlotte Court House, May 4, 1973, at 10 a.m. The speaker will be Harvey Lindsay.

The assembly will include a motivational sound-slide presentation describing over forty health careers. There is no other career field where youth have the opportunity to make a distinctive change in the lives of so many people. Students will be given the chance to ask questions and to obtain further written information on any health career.

VIRGINIA HEALTH CAREERS, a program of the Virginia Council on Health and Medical Care of Richmond, Va., promotes health careers on a statewide basis. The entire focus of the program is geared toward influencing today's youth to considering a health career. The organization works closely with hospitals, local health professionals, and guidance counselors.

With the great need in Virginia for physicians, nurses and the 200 different kinds of careers open to health professionals, today's youth need as much information as possible on the opportunities in the health field.

Facts about the great interest rate war.

No matter what you may read about bank interest rates, keep this one clear fact in mind: **No bank anywhere is paying more than Fidelity.** And most are actually paying less than Fidelity on popular 2-year, automatically renewable 5 3/4% Certificates of Deposit. Here's why:

Fidelity compounds your interest **continuously**, not just daily. So the annual yield to you is more than 6%. It's 6.00315 to be exact.

So in the midst of all the current noise and confusion, just remember this one beautifully simple fact:

Our 5¾ annual yield on 5 3/4% Certificates of Deposit is bigger than their 6%.

And that **is** a fact!
